

Pet Medication Administration Policy

At Nor Cal Pet Services, we strive to provide proper care in administering medications as directed by your pets veterinarian. For those pets who will not easily take their medications, we use various methods/food items to entice them such as pill pockets/treats- As long as approved by pet parent. Medications for your pet will be administered as directed on the medication label.

We are happy to help with medication administration that falls within our basic scope of practice. However, we want you to be aware of limitations and conflicts that can occur while boarding your pet. Your pet may not take their medication the same way that they do at home.

Please be advised: Staff at Nor Cal Pet Services ARE NOT veterinarians and DO NOT have animal related medical training.. Due to this, we prefer to administer medications individually and according to the medication label to ensure they are consumed properly and safely. Please do not pre package your medications with your pets food or in treats. Please send all mediations in original packaging when dropping off your pet for boarding services.

If you have any questions about administration of medication for your pet during these hours or any other health concerns, please contact our office (530)255-8251 prior to making a reservation to discuss in more detail.

I agree to the terms of this policy regarding medication administration for my pet while requesting these services during boarding or daycare at Nor Cal Pet Services Inc.
